Rev. T. G. Woolls

T. G. Woolls died at the home of his son, Frank Woolls, at Cotulla, Tex., after a very brief illness, at the age of about 82 years. The body was brought here Wednesday afternoon and was buried beside his wife in the cemetery, Rev. T. G. Woolls was conducting the services.

Mr. Woolls had resided in Hondo many years and at one time was a member of the Methodist Church. He made many friends among the people during his residence here and his death was a great loss. He was a very useful life came to a close at

his passing and a good man has gone to his reward.

Besides a son, Mr. Frank Woolls, and a daughter, Mrs. John Guinn, both of Cotulla, and six grandchildren, Misses Nettie, Lucile and Gladys Woolls, all of Hondo, and Mrs. H. M. King of Georgetown, we are not aware of any other relatives left behind.

To the stricken relatives the Anvil Herald extends condolence in this their hour of sorrow. The thought that he has gone to claim his reward for a life well spent should prove a consolation to them in their bereavement.

Commencement Exercises.

Commencement exercises of the Hondo High School came to a close at the Auditorium Wednesday evening, and now the 1920-21 term of the school passes into the history of that institution. A great audience was present to greet the newly made graduates—an important epoch in their careers. The following were granted diplomas: Misses Leah Flint, Caro Fusselman, Edna Graff, Helen Lacy, Selma Stiegler, Irene Roberts, Ruth Windrow and Gladys Woods; Messrs. Sidney Fly, Wallace Heath and Chas. Wilson. The invocation was pronounced by Principal Guy T. Newton. Chas. Wilson was salutatorian and Miss Edna Graff valedictorian of the graduating class. Delightful musical selections were rendered by Mrs. Horace Bradley, Miss Irene Saathoff and Miss Nell Wilson. The address to the graduates was delivered by Dr. T. R. Garph of the State University, while the presentation of the diplomas and scholarships was made by Superintendent J. D. Howell, and the delightful evening spent by the great throng now only remains a pleasant memory. Miss Edna Graff and Chas. Wilson were both given scholarships in higher educational institutions of the State.

The term just closed was one of the most successful in the history of the school, a matter of great gratification to all the people of Hondo.

Methodist Church.

Our subject next Sunday morning will be "The Secret Place of God." The baptizing of children and the reception of candidates to membership, if any are present, will be attended to. The subject for the evening hour will be "Christ's Cure for the Blues."

Recital.

The musical program and contest rendered by Miss Nell Wilson's pupils at the auditorium, Monday evening, May 24, was enjoyed by a large audience. The juvenile pianists deserve special mention. The first three of these, Hedwig Leinweber, Alice Muennink, and Lorene Earnest surprised everyone with the ease, grace and naturalness of their playing. Two piano duets by Misses Gladys Parsons and Norma Rothe were also well received. The familiar song, "Texas" was sung by representatives from each of the six grades after which the singing contest was held.

The first, second and third grades entered the primary list and they gave an interesting and varied number of songs. The first grade used "Lady Bug" (with motions), "Betty and Billy," and a "Good-Bye Song." The second grade gave "The Gingerbread Man" and "Indian Song" while the third grade sang "The Battle Cry of Freedom," "Wavelets" and a southern war time song. The eight judges accorded the decision to the first grade and these little tots were the proud winners of a bronze desk statue of Pershing.

The second part of the program was as carefully arranged as the first part. Irene Haass and Cornelia Evans gave pleasing piano numbers and, as usual,

the High School girls' quartet made the "hit" of the evening. These four young ladies, Misses Lorene Heath, Rose Lee Koch, Evelyn Wilson and Lucile Newton showed excellent talent in their song: "In The Heart of a Rose." They responded to an encore. Miss Lorene Merriman, one of the more advanced pupils showed a remarkable tendency for rhythm and musical phrasing in her selection.

The fourth, fifth, and sixth grades entered the second contest and were judged by the standard set by the State University. The fourth grade sang "Bye-Bye," "Capital Ship," and "Lullaby Land." The fifth grade was heard in "Kachunk," "Roses at Twilight," "I've Gwine to the Cotton Fields," and "Battle Hymn of the Republic." The last of the entrants (sixth grade) also showed remarkable training. They sang "Oh! What a Pal was Mary," "Alabama Lullaby" and "Columbia, the Gem of the Ocean." The most difficult number of this series was "The Dixie Blues," combining "Massa's in de Cold, Cold Ground," "Old Black Joe," "Suwanee River," "Dixie" and "My Old Kentucky Home." The prize, a piece of statuary, was given to the fourth grade.

The last number on the program was a vocal trio, "Whispering Hope" by Misses Lorene Heath, Willa Mae Gaines, and Evelyn Wilson. One of

Do Your Best

Everyone should do all he can to provide for his family and in order to do this he must keep his physical system in the best condition possible. No one can reasonably hope to do much when he is half sick a good share of the time. If you are constipated, bilious or troubled with indigestion, get a package of Chamberlain's Tablets and follow the plain printed directions, and you will soon be feeling all right and able to do a day's work.

SPRING FEVER

Following Colds, Grip or Flu,
Thin, Watery or Poisoned Blood

(By Dr. Valentine Mott.)

At this time of year most people suffer from what we term "spring fever" because of a stagnant condition of the blood, because of the toxins (poisons) stored up within the body during the long winter. We eat too much meat, with little or no green vegetables.

Bloodless people, thin, anemic people, those with pale cheeks and lips, who have a poor appetite and feel that tired, worn or feverish condition in the spring-time of the year, should try the refreshing tonic powers of a good alternative and blood purifier. Such a tonic as druggists have sold for fifty years, is Dr. Pierce's Golden Medical Discovery. It is a standard remedy that can be obtained in tablet or liquid form. Made without alcohol from wild roots and barks.

SAN MARCIAL, N. MEX.—"I suffered for two years with frequent headache and pain in my left side and the small of my back. I was despondent and so nervous the least racket would upset me. I wrote to the Specialists at the Invalids' Hotel, and was advised to use Dr. Pierce's Golden Medical Discovery and the Anuric Tablets. I did so and immediately began to get better. My symptoms disappeared and in two months' time my health was regained. I took six bottles of each medicine and a few of the 'Pleasant Pellets' for regulating my bowels. I am now in perfect health and enjoying life.

"I cannot say too much in praise of these medicines and the kind and courteous attention given me."—MISS MAMIE COYSLAND.

Mr. O. E. Richarz returned Friday from "Brushy" where he has just completed a new well, concrete tank and trough.

Mrs. Oscar Shane was at the train yesterday to meet her brother-in-law, Mr. Bob Reynolds, who lives in El Paso. His parents live in Hondo. He was on his way to see his mother, who had a very bad fall recently and is not doing so well.

Prof. Sterling Fly spent the weekend at his home in Hondo.

Miss Alice Newton returned Sunday from Hondo where she spent several days at home.

Suggestions for a Camping Trip

Buy a bottle of Chamberlain's Colic and Diarrhoea Remedy before leaving home. As a rule it cannot be obtained when on a hunting, fishing or prospecting trip. Neither can it be obtained while on board the cars or steamships and at such times and places it is most likely to be needed. The safe way is to have it with you.

Lacoste Ledger Laconics.

Misses Theresa and Eva Hawkes are visiting their sister, Mrs. Ira Burditt at Uvalde this week.

The boys and girls Holstein calf club is a right step in the right direction. Improved cattle means larger returns on your money and prosperity. Mr. Merritt deserves credit for bringing this opportunity to the boys and girls of this section.

Mrs. Ira Burditt from Uvalde was visiting her parents, Mr. and Mrs. W. H. Hawkes, last week.

Messrs. Geo. Christilles and Wm. Lamont took a trip to D'Hanis last Thursday.

Miss Rose Lutz returned to her home at D'Hanis after a several months stay here with Mrs. J. L. Mechler.

Misses Nora and Mayme Loessberg of San Antonio spent the week-end with homefolks here.

About Rheumatism.

People are learning that it is only a waste of time and money to take medicine internally for chronic and muscular rheumatism, and about ninety-nine out of a hundred cases are one or the other of their varieties. All that is really necessary to afford relief is to apply Chamberlain's Liniment freely. Try it. It costs but 35 cents per bottle. Large size 60 cents.

PERCY TYRRELL, MANAGER.

Venustiano Carranza.

President Venustiano Carranza has joined the many Latin American dictators who have ended their stormy careers in flight and death. A fugitive in the mountains of Puebla the old man who kept the United States and Mexico in a broil for five years, was killed Thursday, May 20th, by some of the troops which had protected him as a loyal body guard in his flight from Mexico City.

It was reported to El Paso that Carranza had been made a prisoner and assassinated in a cowardly manner, and several friends who were with him had sent a protest to the leaders of the revolution, addressed to General Pablo Gonzales. The full story may not be immediately known, and even then may be the subject of dispute, but it does bring to mind a prophecy said to have been made by a nun, which is now being talked about in Mexico.

The nun prophesied, the report said, that after Mexico had seen three Franciscos in public life it would have for president an old man who would be succeeded by a president who mounted his horse from the "wrong" side. The prophecy also added that thereafter Mexico would lose independence.

There have been three Franciscos in Mexico's public life since the prophecy was made. They were Francisco de la Barra, now in exile; Francisco Madero, the murdered president of 1913, and Francisco Villa, the bandit leader. Obregon, who led the revolt against him and is expected by many to succeed him, lost an arm in the battle of Celaya with Villa—and mounts his horse from the "wrong" side.

Carranza's death and the manner of it probably will have some important bearing on the action of the United States when it considers recognition of the new government. When President Wilson refused to recognize Huerta he based his action on the untimely deaths of Madero and Suarez, and announced a broad general policy that no government would be recognized which did not rest on constitutional elections and which was based on force of arms alone.

Carranza was born Dec. 29, 1859, in the State of Coahuila, was educated in the public schools of his native State and later studied law at Mexico City. After being admitted to the bar he returned to Coahuila to become a rancher, a Judge, Senator and finally Governor of Coahuila. Having defied Huerta, he rallied a small band of followers which grew to a sizable army when he secured the support of Francisco Villa. Carranza's influence then spread rapidly. Huerta resigned the provisional presidency July 15, 1914, and fled to Spain. General Carranza held his triumphal entry into Mexico City.

Later Villa, Zapata and Orozco declared war on Carranza, but Villa was defeated by Carranza's leading General, Alvaro Obregon, who turned against Carranza in the present revolution.

On March 11, 1917, Carranza was elected President, more than 1,500,000 votes were cast for him. His policy during the war, however, was not a friendly one toward the United States.

Permission was granted relatives of the late president for private interment at the City of Mexico. He leaves two daughters, Julia and Virginia, the latter the wife of General Candido Aguilar.

Biliousness and Constipation.

"For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, purify the stomach, liver and blood, helping the system to do its work naturally."—Mrs. Rosa Potts, Birmingham, Ala.

Must Have Better School.

Our town was largely built on our good school and if we maintain our prestige and build up financially and materially, we must keep our school up with other school towns. School attracts the best kind of people; and when a town lets its school go down, it may expect its better class of citizens to move on seeking these educational advantages. We heard a leading citizen and financier of this town say this week: "If Devine doesn't maintain a strictly first class school, I shall figure on moving to a town that has these advantages—and a town with waterworks, lights, etc." If Devine means to build up and grow larger, we must look out for these things that build up.—Devine News.

INDIGESTION

If you are ever troubled with indigestion, Chamberlain's Tablets will do you good. They strengthen the stomach and enable it to perform its functions naturally. There are hundreds of people who have been restored to health and happiness by the use of Chamberlain's Tablets. When you feel dull and languid after eating you may know that your digestion is faulty, unless you have eaten more than you

should. Belching, sour stomach, bloating are symptoms of indigestion and are relieved by taking Chamberlain's Tablets as directed. Indigestion is usually accompanied by constipation and is aggravated by it. Chamberlain's Tablets cause a gentle movement of the bowels, relieving the stipated condition. Chamberlain's Tablets are also most excellent for looseness. Sold everywhere at 25

Every Drop an Asset

As a dairy farmer you can figure out to the penny that every particle of your cream is worth. You know that every particle of fat has a distinct value to you. You cannot afford to use a separator that misses any drop.

Primrose Cream Separator gets every drop of cream. The principle on which it operates is as simple as the mechanism of a pump. The frame is open and the supply can be large or small. Every bearing and gear is well oiled by a special system.

Primrose separators, good craftsmanship and materials, skimming and durable. These are points that concern your profit.

Whatever the size of the herd, the Primrose is a money-maker. Two-or-three-farmers use them with profit. The Primrose is the only separator that automatically drains out the used oil from the gear case when new oil is added.

Let us demonstrate this and its points. If it is not convincing for you to call, phone us. We will bring a machine out to show you how it operates and what special advantages are to you.

EARLE WILLIAMS

"Don't change your company," is the advice Earle Williams gives to young screen players, and then he adds, "providing you are with the right company." Earle Williams is one of the few film players who has never changed his habitation from one studio to another. He commenced his career 12 years ago with the Vitaphone star family and has never strayed from the fold. "The Wolf," visualized from Eugene Walters' famous stage play, and "The Fortune Hunter," from Winchell Smith's play, have been the means of emphasizing Mr. Williams' ability and popular attraction recently.

JOE RYAN

Joe Ryan felt that he just had to be a villain to keep up the natural fitness of things. He was born at the foot of Devil's Tower, in Crook county, Wyo., and he just naturally had to play he was a bad man. That he succeeded is evidenced by the kisses he receives in nearly every city and town in this broad land. But away from Vitaphone's thrilling serials, he is one of the most quiet and likable men in the motion picture world. And to prove it he is being co-starred with Jean Paige in a serial.

SAYS IT KEEPS HIM ON THE PAY ROLL

G. C. James Was Remarkably Built Up After Taking Tanlac.

"Nothing kept me on the payroll of the Illinois Meter Co. but Tanlac, for I had already made arrangements to give up my position when I began taking it," said G. C. James, who lives at 1419 Franklin Ave., Springfield, Ill.

"I had suffered from rheumatism and stomach trouble for fifteen years," he continued, "and got in such bad shape I could hardly get about. The rheumatism was especially bad in my legs and sometimes my left leg would swell to twice its normal size. My kidneys were also in such a condition I could seldom get a good night's rest, and so far as eating was concerned—well, before I began taking Tanlac I had not enjoyed a meal in years. I suffered so from indigestion, and I had such dizzy spells I would have to lie down. I became so weak I often gave out completely while at work and they would have to take me home in a car, so it is a wonder I held up at all."

"One day one of the men I work with suggested that I try Tanlac and as long as I live I will praise the day I bought it, for I haven't a trace of rheumatism now and I eat everything set before me without any bad after effects. The dizzy spells are things of the past and my kidneys never bother me anymore; every night I sleep like a log and I weigh just thirty-eight pounds more than I did when I began taking Tanlac. I feel twenty years younger and am in perfect health, and there is nothing in the world I would take for the good Tanlac has done me."

Tanlac is sold in Hondo by W. H. Windrow; in Castroville by Joseph Courand and Co.; and in Dunlap by Louis A. Baby.

Diarrhea.

Austin, Texas, May. Diarrhea in breast-fed infants while not so dangerous as in bottle-fed infants, it does, nevertheless, require attention and in both cases the earlier the proper attention is given the lower the death rate will be among this class of cases for although the case may be mild, no one can tell how soon complications may arise and the effects of the two diseases combined may prove to be too great a strain on the constitution of the victim. Neglect is dangerous in all cases but especially so in intestinal troubles as in cases of bottle-fed babies the general nutrition and growth are very quickly affected by diarrhea. Toxic complications may develop which require quick action and rather complicated dietetic treatment.

So long as a case remains uncomplicated in the breast-fed infants, and the diarrhea is light, the lengthening of intervals between nursing periods and shortening the time at the breast may prove very beneficial, especially with the administration of pure boiled water between meals, with a gradual return to normal feeding for nursing periods. But do not take too many chances with the lives of these little people. Call a competent physician in time as delay may mean disaster. Just as it has in so many thousands in the past. When a physician is called, follow his instructions to the letter or he square with him and tell him you are not doing so as the writer has been very much puzzled to understand why the little patient (who could not tell him the facts) was not getting along any better under treatment but in truth was growing rapidly worse in spite of the treatment and all his efforts in the child's behalf until finally the facts were revealed that the infant was being fed potatoes or something else equally harmful by the fond mother who was afraid the child would starve in a few days or hours.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 50c per bottle.

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

Why a Majority of the Smaller Cars Come on Goodyear Tires

Last year more cars using 30x3-, 30x3½-, or 31x4-inch tires were factory-equipped with Goodyear Tires than with any other kind.

This is plainly a result of the high relative value produced in these tires for the smaller cars by Goodyear's enormous resources and scrupulous care.

They represent the same intense endeavor to supply utmost satisfaction in tires that has laid the basis for the marked preference which exists everywhere for Goodyear Tires in the larger sizes.

This real Goodyear value in tires is available for your Ford, Chevrolet, Dort, Maxwell, or other car using one of these sizes, at our nearest Service Station. Go there for these tires and Goodyear Heavy Tourist Tubes.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread..... \$23.50
30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread..... \$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water—\$4.50 proof bag.

A Chapter of Accidents.

A regrettable accident and one that cost him his left eye, happened to Mr. Chas. Stiegler Wednesday. Mr. Stiegler was in the blacksmith shop of Bohlen & Mask. The smiths were at work cutting off a piece of rod iron. When the rod was severed a piece about one and a half inches long and one half inches in diameter flew off, striking Mr. Stiegler in the left eye, badly lacerating the upper and lower lids and puncturing the eye ball. He was given temporary treatment here and was sent to a specialist in San Antonio in an automobile. The eye ball was removed Thursday morning, and he is now doing as well as could be expected under the circumstance. Mr. Stiegler has the sympathy of all our people in his deplorable accident.

Later: Mr. Stiegler died this morning. More particulars next week.

While the son of Mr. and Mrs. Adolph Haegelin was chopping wood one day this week his little 3-year-old sister came up behind him. Not knowing that she was there the boy swung the axe behind and the edge struck the little girl in the center of the forehead above the eyes. The edge of the axe penetrated the bone of the forehead but not deep enough to reach the brain, making a bad gash several inches in length. Surgical assistance was summoned, the wound dressed and while the physician considers the wound serious, thinks the chances for the ultimate recovery of his little patient very good.

A little son of Mr. and Mrs. Godden of Biry fell off a bureau the first of the week and broke his right arm. The injured member received surgical attention and it is hoped the boy will soon recover normal use of his arm.

The 14 year-old son of Mr. and Mrs. John Muennink of New Fountain, while gathering mulberries Sunday fell from a step-ladder and broke his arm. Surgical aid was summoned and he is now making a good recovery.

Charles, son of Mr. and Mrs. Louis Brucks, while playing in a vacant house Thursday afternoon got his left hand caught in a window, and as a result got a bad cut across the back of his hand. A physician dressed the wound and soon, it is hoped, the young man will gain full use of his injured hand.

As accidents of the kind above mentioned seem to occur in communities in given cycles the Anvil Herald hopes they have come to an end for a time at least, as we believe all will agree that our people have had their full share the past week.

Mr. and Mrs. O. R. Stephens were down from the dam Thursday. Mr. Stephens is the fish and game warden at the Medina Lake. He reports the water in the lake still flowing over the spillway.

Discouraged Citizens Will Find Comfort in the Experience of a Hondo Woman.

Experience is the modern instructor. Profit by the experience of others. It may save your life. The experience of friends and neighbors.

The testimony of Hondo people. Will bring renewed encouragement. Here is a case in point:

Mrs. X. Wantz, Hondo, says: "My kidneys were disordered for some time. A dull bearing down pain appeared in my back which greatly increased until I had to give up. I couldn't stoop over or straighten up again without severe pain. I saw Doan's Kidney Pills advertised and bought some at Martin's Drug Store. From the start Doan's did me good and I gladly recommend them to others." (Statement given May 29, 1915).

On May 3, 1919, Mrs. Wantz said: "I think just as much of Doan's Kidney Pills today as when I gave my former statement. I have had no occasion to use them since, for the cure they worked then has proven permanent."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Wantz had. Foster - Milburn Co., Mfrs., Buffalo, N. Y.

A sneak thief entered the office of the Hondo Light, Power and Ice Co. some time Wednesday night and purloined a bag of change that had been left in the office desk over night. Entrance was effected through a window, which he prized open with a pinch-bar, and made his exit through a door which had been closed from the inside. Officers have a clue to the perpetrator and no doubt the guilty party will be brought to justice.

Fritz Poehler.

Our people were shocked Tuesday to learn of the death of our fellow citizen, Fritz Poehler, which occurred at 2:10 p. m. Tuesday, at the Fort Clark Hospital. Mr. Poehler became seriously ill about five days before the end, and was taken to the hospital where it was determined he had appendicitis and an operation performed, but the disease had too much headway for medical assistance to be of much use. Up to the time of his last illness Mr. Poehler had never had a sick day in his life. Funeral took place Wednesday, May 19, from the Episcopal Church, Rev. Langner officiating at the church and at the grave, interment being made in the local cemetery.

Rare are the citizens of the character into which Mr. Poehler fitted so well—a sturdy, loyal man, a kind and loving parent, happy, useful, a good friend and a worker for the community's benefit. In his loss Kinney County loses a good citizen, hard to replace, and his friends unite in expressing their sympathy to those who mourn his loss.

(Brackett News Mail.)

Fritz Poehler was a native of Medina County, born and reared at the old Poehler home at New Fountain, where his aged mother still resides and where he grew up to manhood. He was happily married to Miss Mary Neumann of Quibi. Since about 15 years the family had made their home at Brackettville, where Mr. Poehler was engaged in farming successfully until he was called off rather suddenly by death.

Besides his wife, deceased leaves six children, four boys and two girls, his mother, two brothers (Henry and Willie), three sisters (Mrs. John Weyerts of Alpine, Mrs. John Moehring and Mrs. Fritz Neumann, of Hondo), and many other relatives and friends to mourn his loss.

Those from here who attended the funeral at Brackettville were Mr. and Mrs. John Moehring, Mr. and Mrs. Ben de Grodt, Mrs. Anna Neumann (mother-in-law of deceased), Henry Poehler, Fritz Neumann and Otto Neumann, who are all very grateful for the sympathy shown the relatives by the people of Brackett.

The Anvil Herald joins in sympathy with the bereaved family.

"Remember the Horse-Shoe Tread" — Why?

Look at the tread of a Horse-Shoe Cord Tire and you will see why the Horse-Shoe Tread is as durable and efficient as it is distinctive.

First, the tread of a 5-inch Horse-Shoe Cord Tire is 4 inches wide, giving this tire a wearing surface considerably larger than that of ordinary tires.

Second, over half of this 4-inch width is almost solid rubber. This extra-wide, compactly-solid, non-skid tread "grips the road like a giant horse-shoe" and wears down slowly and evenly under all conditions.

Once you try a Horse-Shoe Cord Tire you will understand why a million motorists prefer Horse-Shoe Tires to any other brand. No other, you'll agree, gives so much for your money.

Dean of the Wharton School of Finance on the Need of Good Railroad Credit.

TO MAKE INVESTMENT SAFE.

National Authority on Railroad Transportation Says Roads Must Be Self-Supporting or Become Bankrupt.

In an address on "The Railroad Puzzle," delivered in Philadelphia, January 8, Dr. Emory R. Johnson, dean of the Wharton School of Finance, and one of the nation's leading authorities on railroad transportation, declared that "after the first of March the companies must be self-supporting or become bankrupt." Continuing, he said: "Can the railroads be successfully financed and operated when they are returned to their owners? For two years the government has drawn upon the public treasury to sustain the credit of carriers.

"If the carriers avoid failure their income must cover operating expenses, maintenance and capital charges; if the companies succeed to the extent that is demanded in public interest, they must not only be able to meet unavoidable expenses, they must have some surplus revenue.

"If there is no income to be used in part for betterments and in part for building up a surplus or reserve fund, the public will not invest in the railroads, their credit cannot be re-established and maintained and corporate ownership and operation of the railways will fail.

"The income of the carriers is determined by public regulation, and properly so; but from this it follows that the country must decide between a policy of adequate revenues to the railroad corporations of the future and a policy of government ownership.

"The government is entitled to credit for having given greater unity to railroad operation, both line and terminal. It has done much that the carriers were prohibited from doing. The public now realize that co-operation of the carriers in the joint use of equipment and terminals should be encouraged, instead of prevented.

"The railroad legislation now pending in Congress must solve many difficult questions, but the most critical one is that of providing for the future regulation of railroads in accordance with a policy that will cause the carriers to secure revenue sufficient to enable them to perform their services adequately and with progressive efficiency. The railroad business must be made attractive to private investments or the country will have to adopt government ownership and operation of the railroads. There is no other alternative."

An attack of heartburn or indigestion calls for a dose of Herbine. It relieves the distress instantly and forces the fermented food into the bowels. You feel better at once. Price, 60c. Sold by W. H. Windrow.

INCREASED WAGES TOOK 97% OF INCREASED RATES.

Increases in freight and passenger rates made during federal control amounted to \$1,835,000,000 when applied to the traffic moved up to July 31, 1919, while the increases in wages applied to the number of employees and the hours or days worked in July, 1919, amounted to \$1,774,800,000, or 97 per cent of the revenue from the increased rates, according to a statement compiled by the Interstate Commerce Commission at the request of Senator E. D. Smith of South Carolina and presented by him in the senate on December 29.

When your breath is bad, appetite poor, and you feel "blue" and discouraged, you need Herbine. One or two doses will set you right. It is a great system purifier. Price, 60c. Sold by W. H. Windrow.

Flock No Longer Put to Sleep By 'Pulpit Voice' of Preacher

You wouldn't think of applying the word "jazz" to a church sermon.

Yet that bit of modern slang is the word which most adequately describes the new manner and voice in which pulpit messages are delivered. Jazzed music is fundamentally simple and easy to understand. And that is also a description of the modern sermon.

The old style minister, with his intoning, rhetoric and oratory, too often talked over the heads of his congregation. He lulled them into

Christianity and sleep at the same time. His sermons were apt to be complex and obscure.

The modern minister presents his message in clear, concise English, and in a natural voice. He talks directly to his congregation and brings them to Christianity thoroughly wide awake. This change in pulpit method was uncovered in an Interchurch World Movement survey and is one of thousands of interesting side lights disclosed in its work often bringing the Protestant churches into closer co-operation.

Front Campus View, Baylor University

Oldest University In Texas To Celebrate 75th Anniversary In June

Distinguished Statesmen, Poets, Clergymen, University Presidents and Educational Leaders To Be Present On This Historic Occasion.

By Coleman Craig

Celebrating its seventy-fifth anniversary, Baylor University at Waco, Texas, the oldest institution of higher education in Texas, is expecting ten thousand visitors and former students to be in attendance at its Diamond Anniversary exercises, to be held June 13-16. Distinguished men from over the United States will be present on this occasion. President Wilson has appointed as his personal representative to attend the celebration, Postmaster General Burleson, an alumnus of Baylor. Among other prominent visitors will be the Hon. Cato Sells, commissioner of Indian Affairs; Senator J. Hamilton Lewis, who was member of the 55th Congress from the state of Washington, later removing to Chicago and elected as senator from Illinois, the author of the resolution recognizing Cuban Independence; Bishop Ainsworth of the M. E. Church South; a group of famous poets, including Edwin Markham, Vachel Lindsay, William Butler Yeats, and Amy Lowell; the presidents and representatives of seventeen universities from ten states: Dr. Geo. W. Truett of Dallas, who will deliver the commencement address; and Dr. Geo. W. McDaniel, who will preach the baccalaureate sermon. Honorary degrees will be conferred on these distinguished guests. As part of the anniversary year's celebration, Baylor had as its guest recently, William Howard Taft, ex-president of the United States, upon whom was conferred the honorary degree of Doctor of Laws.

Bach's Masterpiece to Be Presented For First Time in South.

As part of the Diamond Jubilee program, Bach's masterpiece, "The Passion according to St. Matthew," is to be presented. This is the first time in the history of the South that a college or university has ever attempted to render this oratorio. Under the direction of Baylor fine arts department a massed chorus of 500 voices is being trained for the presentation of this most wonderful oratorio in all the realm of music. An orchestra of fifty pieces will furnish the accompaniment in connection with the spring festival of music, the light opera, Pinaflore, is also to be given.

Mammoth Rustic Arbor to Be Built

To add a distinctive western atmosphere to the program, a mammoth rustic arbor, seating ten thousand, and similar to the typical Texas arbors, such as have been erected by the thousands on the wide prairies of Texas, will be constructed, where many of the exercises will be held.

Movies Will Film Occasion.

The more dramatic features of the program, and close-ups of the distinguished men and women who will be present, will be taken and shown all over the United States. A corps of newspaper men will also be present to cover every detail of the program, from whose reports a history of the event will be written and preserved in permanent book form.

Degrees to Be Conferred On Old Students.

Among the most interesting features of the program will be the conferring of degrees upon the old graduates of Baylor University, when it was located at old Independence, and of the graduates of Waco University, which was in 1886 united with Baylor at Waco. Fully a hundred of these old students, now gray-haired grandfathers and grandmothers, and living in distant sections of the United States, will return to their old alma mater for their degrees and to take part in the Diamond Jubilee celebration. President Brooks is in receipt of letters from these old students, written, in

many cases however, by sons and daughters because of failing eyesight and trembling hand, saying they are planning to be present. Since receiving one such letter, another has been received, written by the daughter, saying that the old mother, who had planned to be present and had been gathering with almost childish enthusiasm pictures and little mementoes of the old class to bring along, had died during her preparation for the trip. It illustrates the age which many of them have reached.

Began With Twenty-four Students.

The celebration of Baylor's seventy-fifth anniversary recalls some interesting historical facts. The institution began with twenty-four students and only one department. The growth has been phenomenal and now Baylor has an enrollment in its different schools of 1600, and departments in fine arts, liberal arts, education, medicine, dentistry and pharmacy. During the institution's history approximately 22,000 students have passed through its doors.

Born In Days of Republic.
Baylor University is older than the state of Texas. It had its birth in

S. P. BROOKS, President Baylor University.

the days when Texas was a republic among the nations of the earth. The charter was granted by the Republic and signed by President Anson Jones, Feb. 1, 1845. Leading up to the founding of the institution, there had been an organization known as Texas Baptist Education Society, which was organized in 1841. Thus the idea and desire among the Texas pioneers for an institution of higher education dates back at least eighty years. The work of this organization was handicapped in the founding of a university, however, by the unsettled condition of the times, General Wolf's Mexican invasion and other disturbances. The leaders of the movement for a university for Texas were Judge R. E. B. Baylor a distinguished jurist for whom the institution was named; Rev. W. M. Tryon and Rev. James Huckins. Unique Bid Offered for Location of School.

"When it was fully determined to found a university in the state there was quite a bit of competitive bidding for the location among several of the towns. One of the bids offered had the following items listed as the inducements to bring the university to the interested town: one section of land, one yoke of oxen, five head of cattle, a cow and calf, one bay mare, one bale of cotton, twenty days' hauling, and \$200 in cash. The old town of Independence won in the bidding and

it was here that Baylor was first located. The school remained here until 1886 when it was moved to Waco and consolidated with old Waco University, under the corporate name of Baylor University at Waco. The four towns that made effort to secure the university location were Independence, Huntsville, Travis and Shannon's Prairie.

Idealism of Texas Pioneers.
The men of that time lived in crude surroundings, it is true, but the following sentence taken from the statement of the purpose for which Baylor was founded, attests the genuineness of their idealism: "To found a university upon a plan so broad that the requirements of existing conditions will be fully met, and that will be susceptible of enlargement and development to meet the demands of all ages to come." A sentence surely that would not be ill-fitting, were it framed in the year 1920!

Second Co-educational School in the World.

Baylor University has the distinction of being the second school in the world to admit women on the same basis as men. It is another tribute to the progressive-iveness of these pioneer Texans that they were men of such breadth, and living so far ahead of the generally accepted standards of the time. It will add emphasis to their idealism and progressiveness when it is remembered that the men of this time were dividing about equally their efforts in following bloodthirsty Comanches on the war-path, and eking out a living on the virgin prairies of the new country. No railroad had as yet bound the towns and small communities together with bonds of steel. The average citizen of the time, dressed in his coonskin cap and leather breeches, would not have known what a good roads speaker, if there had been such a personage at the time, was speaking about. And yet it was these men who concerned themselves with the task of founding a university that could be developed "to meet the demands of all ages to come."

The Future Program of Baylor.
From the small beginnings just related Baylor University has grown to be an institution with an enrollment of 1600, in its different departments. A new dormitory for men, cost \$300,000 is being erected, and will be ready for occupancy, it is hoped, by the opening of the fall term. Baylor is to receive \$1,500,000 out of the Baptist 75 Million Campaign. This will enable the erection of many other buildings and added equipment. The present library has 40,000 volumes, with 15,000 government documents and 200 magazines. The library is noted as having the second largest collection of works on Browning in the United States. The famous painting of Browning by his son, hangs in the library of Baylor University.

A new department of law has been established and will be opened in September. At the same time a department of agriculture will be opened. It is also proposed in the near future to add a school of journalism.

In its history Baylor University has had distinguished men at its head as presidents. Their terms have been comparatively long, among those serving: Dr. H. L. Graves, its first president; and Dr. R. C. Burleson, a brother of General Burleson of Texas fame. Since 1902 Dr. Samuel Palmer Brooks has been president of the university and during his administration the school has shown its greatest growth and development.

Austin, Texas. Forty times as much anti-tuberculosis work is being done in the United States in 1920 as was done fifteen years ago. This is the declaration of the Texas Public Health Association, basing the statement on the amount of money spent in the elimination of tuberculosis. The results show that in the past fifteen years the death toll from the white plague in this country has been reduced from 200,000 to 150,000 yearly.

In 1905, when the National Tuberculosis Association, the first widely-organized volunteer anti-tuberculosis agency, held its first meeting at Washington, D. C., the total budgets of the organizations which fought the white plague amounted to not more than \$100,000. In 1920, the amount which will be spent by the National Tuberculosis Association and its 1,000 affiliated organizations is over \$4,000,000 for education on prevention and cure of tuberculosis and other communicable diseases, open air schools, clinics, preventoria for children, sanatoria, summer camps, dispensaries, tuberculosis nurses, relief work, etc.

Over \$2,500,000 was spent on anti-tuberculosis work in 1919. In Texas more than \$66,000 was spent, in the activities mentioned, by the Texas Public Health Association and its local affiliations in various cities and counties of the state.

Fifteen years ago there were only five states making active efforts to cope with the ravages of tuberculosis; today every one of the forty-eight states has an anti-tuberculosis association, and so also have Porto Rico, Hawaii, and the Philippines. In addition there are nearly 1,000 other local associations and societies engaged in the work of stamping out the white plague.

3 million dollars worth of phonograph

Do you want to see what 3 million dollars' worth of phonograph looks like?—what three million dollars' worth of phonograph sounds like?—why anyone would put this staggering amount into one single solitary phonograph?

Come into our store and let us show you an exact duplicate of the Original Official Laboratory Model of

The NEW EDISON "The Phonograph with a Soul"

The Original Official Laboratory Model! That's a name to conjure with. That's the phonograph which cost 3 million dollars.

Remember the 7 long years during which Mr. Edison experimented night and day. Remember the marvelous result he achieved.

Remember the countless times that exact duplicates of the Official Laboratory Model have matched their art directly against living artists,—and have proved that there is no difference between a singer's voice—or instrumentalist's performance—and its RE-CREATION by the New Edison.

We have exact duplicates of the 3 million dollar Original Official Laboratory Model. We guarantee that they will also match the living artist and equal the entire 3 million dollar musical ability of its famous prototype.

Our Budget Plan! The ideas of common-sense Americans, from Ben Franklin to Thos. A. Edison, applied to the purchase of a New Edison. Do you know about it?

INTRODUCING SAHLUKENE QUEEN OF WITCH DOCTORS

Sahlukene Cele, once queen of the Zulu witch doctors, has abandoned her practice and is studying Christianity. Cele was known as premier "caster out" of "maidenly spirits" in Africa. The Zulus believe these spirits have power to keep eligible young men from proposing. At least, the Zulu debutante thinks this true and when a proposal does not come quickly she seeks the witch doctor. Tribal wars in recent years have made men scarce in Zululand, so Cele was doing a tremendous business when a field worker for the religious, social and economic world survey of the Interchurch World Movement met her. He saw Cele banish spirits with incantation and the smoke from a fire consisting of herbs, leaves, cuttlefish powder, elephant's flesh and a live python. Cele explained that the python's ability to hold tightly was passed on to the maiden that she might keep her husband in an everlasting grip. It was through the efforts of Dr. James B. McCord, a Congregational medical missionary, that Cele became interested in Christianity. Dr. McCord is now in the United States in the interest of a medical institute to be started in Durban. Here the Zulu witch doctors will be taught medicine and surgery.

Mrs. Ed. H. Ney Entertains.

On Tuesday afternoon, Mrs. Edmond H. Ney entertained with a miscellaneous "showers," honoring Miss Adella Koch, a bride of next week.

After the guests had assembled each was asked to draw a picture from those which were provided, and the one who was lucky enough to draw the "Bride" had the honor of escorting the bride-to-be to the dining-room which had been tastefully decorated in yellow and gold, and where was found a tiny bride's house filled with many useful gifts. The doors of the tiny house were open but two cupids kept guard over the gifts until the arrival of the bride.

Delicious punch and cake was served to the following: Misses Dora Koch, Annie Reily, Alma Rothe, Gertrude Reily, Lucile de Montel, Annie Sykora; Mesdames John Finger, Felix Batot, Chas. Finger, Will Ney, Chas. Filleman, John Koch, Felix Richter, Robert Koch, Richard Reily, Earl Starnes, and the honoree and hostess.

Your Liberty Bond.

The United States Government borrowed money from you to finance the War. You hold the Government's promise to pay you back. This promise is called a Liberty Bond or Victory Note. On this Bond is stated the conditions under which the Government borrowed the money from you.

For instance: If you hold a Bond of the Third Liberty Loan, it states that on April 15th and October 15th of each year until maturity, you will receive interest on the amount you paid for the Bond. Other issues bear other rates of interest and other maturity dates, all of which are clearly stated on the Bond.

Now, if you keep your Bond until the date when the Government pays you in full for it, you do not need to worry if, in the meantime, the price is low one day or high the next. You and Uncle Sam are living up to your agreement with each other, and neither will lose by it.

On the other hand, if you sell your Liberty Bond now, you will find that the man you sell it to will not give you a dollar for every dollar you paid for it. The price has been brought down because so many people are offering to sell their Bonds. If the market is flooded with tomatoes, you can buy them cheap, but if every one is clamoring for tomatoes and there are few to be had, the price goes up. The same is true of Liberty Bonds. Short-sighted people are dumping them on the market, and wise ones are buying them.

The best advice that can be given to the owner of a Liberty Bond is this: Hold the bond you bought during the war; it is as safe and sound as the United States Government itself.

Buy as many more at the present low rate as you can afford. If you hold them to maturity, you are bound to make the difference between what they sell at now and their face value. You will also receive good interest on your investment.

Hold on to your Liberty Bonds and buy more.

Get Rid of That Sour Breath

PEPSINOL Gets Rid of the Cause of Sour Breath

Sour breath is frequently warning of a complete physical breakdown, for it is an unfailing sign that undigested, fermenting food is making your stomach weak and filling your blood with acid poisons. This acidity makes your blood thin and watery, makes you thin and pale, weak and tired. Pepsinol overcomes this acid by insuring splendid digestion and helping to create the rich, strengthening blood that keeps you strong and vigorous. Pepsinol soon restores vitality after any illness by stimulating the appetite and restoring harmonious action of stomach, liver and kidneys.

Home Floriculture.

BY EREN E. REXFORD

The book consists of fifty-one chapters of three hundred pages of practical information on many topics relative to the growing of flowers for home use. Among many other topics the following may be taken to indicate the scope of the work: Soil for Plants in Pots, Watering Plants, Care of Plants in the Window, The Propagation of Plants, Insects and How to Fight Them, Fertilizers, Diseased Plants, Vines for House Culture, Small Greenhouses, The Best Annuals, Palms, Ferns, etc.

Perhaps the best features of the book may be summed up by saying that the author names, illustrates and describes the various kinds of flowers, vines and shrubs most desirable for beautifying our homes and gives such specific directions for growing the flowers and beautifying the grounds that the amateur can easily follow the directions given.

The book should be in the hands of every grower of flowers about the home and yard. It will be a familiar, practical guide to a better understanding and a more successful production of—"Our Friends, the Flowers." It is sold for the modest price of \$1.50, by the publishers, the Orange Judd Company, 315 Fourth Avenue, New York.

Paint Has Saved It From Ruin

Without paint protection during its seventy years of service it would have gone to ruin long ago. The surface coating of paint has borne the wear of rain, storm, sun and wind—no chance for decay or rot. Every board and timber will be sound and strong, as long as it is kept well painted.

Lincoln House Paint

gives the best and most lasting protection. It will cover more surface per gallon and wear longer than ordinary paint.

Let us estimate the amount you will require and show you color combinations suitable for your house, whether you buy or not.
